

January Update 2012

## Happy New Year!

In 2010 Jane Iredale mineral makeup received the Seal of Recommendation from The Skin Cancer Foundation for four of its most popular products. The products that proudly wear the seal include Amazing Base (loose powder), Pure Pressed Base (pressed powder), Dream Tint and Powder Me.

These products are now recommended by The Skin Cancer Foundation as effective aids in the prevention of sun induced damage to the skin, including sunburn and possible premature ageing.

Are you using one or more of these products???. Ask us which is best for you.
